

Electrostatic Technology

The Clorox® Total 360® System has proven electrostatic sprayer technology with wraparound coverage.

Electrostatic technology enables Clorox® sanitizers and disinfectants to reach the side, underside and backside of surfaces.

Uses an air compressor for quiet, powerful liquid flow

FORCE STRONGER THAN GRAVITY

 An electrode introduces an attractive charge and atomizes the solution. The particles are both attracted to and uniformly coat surface.

Charged particles are attracted to surfaces.

Solution reaches and wraps around surfaces.

Each surface is uniformly coated with solution.

Superior Clorox® Total 360® Coverage

REPRODUCIBLE STATIC TEST

Superior coverage demonstrated on an everyday trash can. The trash can was wrapped in tape around the center. After spraying from the front of the trash can and removing the tape, one can see that the Clorox® Total 360® System's electrostatic technology enables superior coverage not only on the front, but also the side and back of the object.
